

Brilliantly Developed, Highly Effective Computer Security • Reduce Support Costs & Diminish Computer Downtime

Clean Slate® is Better

Comparison of Clean Slate to Reboot to Restore Products

Clean Slate

Clean Slate & Central Control

Reboot to Restore Products

Antivirus updates are permanently saved while security is active	●	●	
Windows Critical Updates run automatically and are permanently saved while security is active	●	●	
Block unwanted executables and programs	●	●	
Easily restrict files running from removable media and network shares with the flexibility to still allow permanent saves	●	●	
Zero Day malware & MBR protection	●	●	
Restrict installing or executing unknown applications	●	●	
Enable and disable security without reboot	●	●	
Automatic restart, shut down, or log off after a period of inactivity	●	●	
Easily allows permanent saves in existing user folders without partitioning (ex: My Documents, Desktop, Favorites)	●	●	
Clear user changes at reboot	●	●	●
Clear user changes at log off	●	●	
Disable security at scheduled time for maintenance	●	●	●
Installs seamlessly on image, with no extra processing on each imaged computer required	●	●	
Customize security by user, computer, or group	●	●	●
Permanently stores product activation codes so licenses are not reverted at reboot (ex: AutoCAD® products)	●	●	
Accommodates remote configuration software while security is active (ex: SCCM, Altiris™ and LANDesk®)	●	●	
No yearly maintenance fee required for technical support	●	●	
Allow administrator specified applications to make permanent changes	●	●	
Log off, restart, and shut down remote computers		●	
Control security through a network		●	●

Based entirely upon review of published promotional material and upon individual product Web sites as that material and Web sites existed on January 9, 2014, what is shown above is a comparison of the features of Fortres Grand's Clean Slate and its competitor programs. If the competitive programs offer features over and above those listed in the promotional material and product Web sites of the particular competitor of Fortres Grand, then those features were not so publicly advertised for those products.
