Susan's Brainwork

Tip #2

Good afternoon,

We are weeks from our Fortres Grand Users Conference in Las Vegas. When I think of Vegas I think of Elvis, which reminds me of a day in 1977 when I was playing at my friend Stacy's house. Her mom came into her room sobbing and through her tears announced that Elvis had passed away. Innocently, I turned to Stacy and asked, "Is he that clown on Bozo's Circus?" It was by no coincidence that moments later Stacy's dad drove me home. And now that I think of it, I don't ever remember being invited over again. My tip this month should be never assume a deceased person is a clown, at least, not out loud.

Tip 2 When in Las Vegas check out the performance by Pete "Big Elvis" Vallee

For many, there is still A Burning Love for Elvis and his music. His music was never really on my radar, until one day while in Las Vegas I was making My Way through Harrah's and was drawn like a magnet to a man singing in the piano bar. There he was, Big Elvis. Big Elvis sits on a throne while he sings and every once in a while he stands to liken the, ahem, jiggle of Elvis. It is free to see him and he has afternoon shows. Fortunately, Big Elvis also tours, so you don't necessarily have to go to Vegas to see him. My Elvis ignorance, as Stacy's mom could attest to, can't do Big Elvis justice, these links may help: www.harrahslasvegas.com/shows/big-elvis.html and www.bigelvislasvegas.com

If you are in town to see Big Elvis then you should check out our Users Conference. It is created for past, present and future users of our award winning software. One of our Lead Developers teaches the classes. While he may not be as entertaining as Big Elvis (shhh, don't tell him I said that!) you will benefit from his easy to follow guidance on how to effectively use our software.

As always, I gladly accept input on my newsletter, or anything else you would like to address.

Until next time,

Susan
