

# Susan's Brainwork

## Tip #6

Greetings,

The other day my 9 year old son Ian was working on a project. When I offered to help, he politely declined my assistance. Jokingly, I responded, "Alright, I'm just going to sit here and look cute." With a raised eyebrow and his usual quick wit, Ian replied, "Not in that yellow shirt." My poor clothing choice aside, it is rare when we have a chance to just sit there while someone or something does the work for us. But, our software does just that. Let us show you.

### **Tip 6** Register for any of our Free 30 minute Webinars

Fortres IOI, Clean Slate, Central Control and our debut software Fortres Clean Slate Cloud are simple to install and simple to use. We've done the work for you. Install it and forget it, or customize and play with it all you'd like. Let us help you to just sit there and look cute, and secure your computers all in one move. [Register Now!](#)

For the record, the yellow shirt will never be worn again.

Until next time,

Susan
