## tip 9

Greetings,

Like most parents, I have a menu of adages I repeat to my children (dare I say incessantly), and each time I recite one they can't resist saying it with me, but in a sing-song tone which has become a joke in our home. But, it works. My favorite is "Be kind to everyone, always, because you don't know what is going on behind their closed doors." How sweet life would be if more people adopted this philosophy. But, sadly, many have taken to bullying, instead, and children, parents and school staff all suffer. Bullying is a very serious and difficult problem and we have made it a priority to provide help.

**Tip #9:** Take the First Step. Report a Bully with BullyButton.com.

Bully Button is private bully incident reporting and tracking for your school or organization. It allows victims and witnesses to easily report bullying and include necessary details. Once a report is made Bully Button notifies administrators via text message or email. Bully Button then allows administrators to record investigation notes, findings and disciplinary actions.

The issue of bullying is a daunting one. It is often unclear to whom it should be reported or how to track the status. That is why we've made bully reporting and tracking near effortless, and affordable. The cost is only \$195 per year.
